### Poetru.

Will the friends I love be near me When I die? Will they shrink to touch the pallor Of the lips that turn to meet them, Trembling with the last "Good\_bye?"

And my mother, sweetest mother, When I die? I would have thy voice to soothe me Of the angels in the sky.

Brothers, sisters, kiss me often When I die, And my lips will smile in closing As if clasped in dreams so golden That I will not wake to sigh.

is preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of oblequy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the remedy should be judiciously taken according to directions on the bottle.

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been em-ployed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

men, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their euro.

### Getting the Pony Shod,

I went to the smith's one suitry day
For shoes for my favorite pony,
And I stood in the door of the shop, the while,
And played with the watch-dog, Tony.

Then I watched the sparks from the flaming forg And tasked to the smith of the weather; I'll, what with the heat and with nothing to say, I grew thirsty and dull together.

When, down by the well, through the garden gate Seeing Sasan, the blacksmith's daughter, brushed the coal dust from my face, and went To ask for a drink of water.

The bucket was heavy, the chain was long,— You would say so, too, if you saw it; 'I'was down in the well, and my arm was strong, So I offered, of course, to draw it.

She thanked me; we leaned on the cool, wet curb, The soft shadows over us gliding,
As she filled the pail, remarking, the while,
"Tis a very warm day for riding."

"Yes," I answered, and took from her small brown

hand,
A bright dipper brimming over,
And thought, while I drained it in sight of her

How happy must be her lover. I stepped slowly across the flagstones wet, When she said, without blush or flurry, "Your pony can't surely be waiting yet, And why need you be in a hurry?"

So I carried the pail to the kitchen door

"You may ride mine," I said, and so the next day I sent it by Cyrus, her brother; But the pony had life, and alone, wasn't safe, So I went, just to make up the other.

Well, Susan liked riding, and I liked it too; So we tried it, of course, quire often,— Till, at last, the short days of the autumn grew Too chill for the sun to soften.

Then to Susan I said, "since we cannot ride

This dreary November weather,
If you think you would like it as well, my dear,
Suppose we try wasking together?"

"Will you walk with me, always?" I said, and as

Said not "nay," I took it for granted,-For "silence is yea," so the old adage says; And silence was just what I wanted.

DEATH.—What woes are caused by death in this world! They are seen everywhere. The earth is "arched with graves." In almost every dwelling death has been doing his work of misery. The palace cannot exclude him; and unbidden he comes into the cottage. He finds his way to the dwelling of ice in which the Greenlander and Esquimaux live; to the tent of the Bedouin Arab, and the wandering Tartur; to the arched and the wandering Tartur; to the arched and the wandering Tartur; to the arched and the WBURN BOOK STOKE.

THE Eastern States, including New York

I and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that conduces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspepsia and physical debility are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so succeptible of derangement. Thousands are now paying the penalty of this ease is produced by inattention to the digestive organs, which are so succeptible of derangement. Thousands are now paying the penalty of this ease allowed and that they must bear with it to the end. DR. J. HOSTETTER'S CELEBRATED STOMACH BITTERS. But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically, or with a temporary power—the influence of the remedy is lasting. And if a patient will the BITTERS do not act spasmodically, or with a temporary power—the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the eneroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical case; whereas they are now suffering from extreme weakness and nervousness. To this venerable class of people, HOSTETTER'S

erable class of people, HOSTETTER'S BITTERS may be commended as invaluable. The proprietors of this invigorator have, in addition, a deep gratification in assuring NURSING MOTHERS that they will find the BITTERS they be best and safest of restoratives. Very few medicines are sanctioned by physicians as proper to be administered during the period of nursing; and this has obtained an universal preference.

ANOTHER CASE OF FEVER AND AGUE CURD.

PT A few days ago we recorded an astonishing cure of Feyer and Ague by the use of Dr. M'Lane's Liver Pills, prepared by Fleming Bros., Pittsburgh, Fa. We have now another to mention, viz: that of Mr. James Sharp, of Madisonburgh, who states that he had labored under a very severe attack of Ague and Fever, and was soon restored by the use of these Pills.

Ague and restained the property of these Pills.

Although long known as a sovereign remedy for chronic case of Hepatic derangement, or discases of the Liver, the proprietors, Fleming Bros., of Dr. M'Lane's Pills, were not prepared for the frequent, but gantifying evidences of its general utility and curative capacity.

must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the oxidinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

NEW ENGLAND AILMENTS

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROPULA AND SCROPULOUS COMPLAINTS, Enuprions and Endough Strumous continued to surprise of the Hard, Syrhum's AND SCROPULOUS COMPLAINTS, Enuprions and Endough Strumous Strumous continued to a surprise of the body by an alterative medicine. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically, or with a temporary power—the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the eneroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical ease; whereas they are now suffering from extreme weakness and nervousness. To this venerable class of people, HOSTETTER'S HITTERS may be commended as invaluable. ### "I Wish He would make up his Mind."

I wish he would make up his mind, ma,
For I don't care much longer to wait,
I'm sure I have hinted quite strongly
That I thought of changing my state;
For a sweetheart he's really so backward,
I can't bring him out though I try;
I own that he's very good tempered,
But then he's so dreadfully shy.

When I speak about love and a cottage.

Ile gives me a glance of surprise;
And if I but hint of a marriage,
He blushes quite up to his eyes!
I can't make him jenious—I've tried it—
And 'tis no use my being unkind,
For that's not the way. I'm certain,
To get him to make up his mind.

I've sung him love sonnets by dozens I've worked him both slippers and hose; And we've walked it by moo light together,

And we've walked it by moo sight toget Yet he never attempts to propose! You really must ask his intention, Or some other beau I must find; For indeed I won't tarry much longer, For one who can't make up his mind.

tain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that conduces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyseposia and physical debility are prevalent among all classes. The first disease is produced by inattention to the digesticorgans, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their ailment is chonic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dysepsia, which is known as

CELEBRATED STOMACH BITTERS.

But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically, or with a temporary power—the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the eneroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical case; whereas they are now suffering from extreme weakness and nervousness. To this venerable class of people, HOSTETTER'S BITTERS may be commended as invaluable. The proprietors of this invigorator have, in addition, a deep gratification in assuring NURSING MOTHERS that they will find the BITTERS were sented of nursing standards. CELEBRATED STOMACH BITTERS.

LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to
Dr. Chas. M'Lane's Celebrated
Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,
For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it is nesses on any part of it. No organ is free from its attacks, nor is three one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children into the third and fourth generation;" indeed, it seems to be the roof of Him who says, "I will visit the iniquities of the fathers upon the reflect commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous constitutions and many destructive diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumation; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are agravated by the same cause.

One quarter of all our people are scrofulous; their proving are invaded

The Simple Secret.—Twenty clerks in a store, twenty hands in a printing office, twenty apprentices in a ship-yard, twenty young men in a village, all want to get along in the world, and all expect to do so. One of the clerks will rise to be a partner, and make a fortune. One of the compositors will own a newspaper, and become an influential and prosperous citizen. One of the apprentices will come to be a master-builder.

One of the villagers will get a handsome.

# DR. M'LANE'S CELEBRATED VERMIFUGE LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public.

We refer to
Dr. Chas. M'Lane's Celebrated Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.: THE VERMIFUGE, For expelling Worms from the

human system. It has also been administered with the most satis-

factory results to various Animals subject to Worms. THE LIVER PILLS, For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK

HEAD-ACHE, &c. In cases of FEVER AND AGUE, preparatory to or after taking Quinine, they almost invariably make

a speedy and permanent cure. As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS, PITTSBURGH, PA. to dispose of their Drug business, in which they have been successfully engaged for the last Twenty

Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough

manner. Address all orders to FLEMING BROS. Pittsburgh, Pa. Sold in Wobnrn by Benjamin W.C. nant Elbridge Trull, also by dealers in Medicire

# NEW ENGLAND AILMENTS THE ONLY REMEDY!

THE Eastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that conduces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspepsia and physical debility are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their allment is chronic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may ehronic, and that they muse characteristics are several size and that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

CELEBRATED STOMACH BITTERS. But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving sought in vain for some invigorating, life-giving sought in vain for some invigorating, life-giving soughting, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the

eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically, or with a temporary power—the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the eneroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the sead text see their declining days in physical upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical ease; whereas they are now suffering from extreme weakness and nervousness. ### I am Dying.

The following beautiful poem we copy from the Memphis (Tenn.) Bulletin. It is rarely we find such in the columns of a newspaper. It is sweetly, beautifully sad.

Paint and fainter comes my breath;
And these shadows, stealing slowly,
Must, I know, be those of death.
Sit down close beside me, darling,

Thence shall ever lead me on, Where, upon a throne eternal, Sits his loved and only Son. I've had visions, and been dreaming O'er the past of joy and pain; Year by year I've wandered backward, Till I was a child again.

Dreamed of girlhood, and the moment
When I stood your wife and bride—
How my heart thrilled with love's triumph
In that hour of woman's pride.
Dreamed of thee—and all the earth cords
Firmly twined about my heart—
Oh! the bitter, burning anguish
When I first knew we must part.

It has passed—and God has promised All thy footsteps to attend; He, that's more than friend or brother, He il be with thee to the end. There 's no shadows o'er the portals Leading to my heavenly home— Christ hath promised life immortal, And 'tis He that bids me come.

The young woman blushed deeply, and did 'i know you speak from love to me.

Among other things, it is said of him that while he was employed in the General Post Office, on one occasion he had to copy a letter of Major II., a high officer, in answer to an application made by an old gentleman in ment of a new post office. The writer of the letter often used classical language; in this letter he said the application could not be granted, in consequence of the applicant's "proximity" to another office. When the letter came into G.'s hands to copy, being a great sticker for planness, he altered " proximity" to "nearness to." Major II. observed it, and asked G. why he altered his letter? THE ONLY REMEDY! THE Eastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of the property with the contained win organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their ailment is chronic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

3CT I do hereby certify to the public, that a child
of mine, four years old, being troubled with worms,
I was induced to purchase a bottle of Dr. M'Lane's
Celebrated Vermifage, prepared by Freming Bros.,
of Pittsburgh, Pa., which I administered; and the
result was, it brought away an immense number of
worms in bunches and strings; many had the apworms in bunches and strings; many had the appearance of being cut to pieces. My child is now
conjoying most excellent health. I take pleasure in
recommending it to both young and old, as once of
the best medicines I ever used.

rid itself of corruptions, if not assisted to do
this through the natural channels of the body
by an alterative medicine. Cleanse out the
vitiated blood whenever you find its impurities
bursting through the skin in pimples, eruptions,
or sores; cleanse it when you find it is obtructed and sluggish in the veins; cleanse it
whenever it is foul, and your feelings will tell
you when. Even where no particular disorder
is felt, people enjoy better health, and live
longer, for cleansing the blood. Keep the
blood healthy, and all is well; but with this
pabulum of life disordered, there can be no
lasting health. Sooner or later something
must go wrong, and the great machinery of
itie is disordered or overthrown.

Sarsaparilla has, and deserves much, the
reputation, of accomplishing these ends. But
the world has been egregiously deceived by
preparations of it, partly because the drug
alone has not all the virtue that is claimed
for it, but more because many preparations,
pretending to be concentrated extracts of it,
contain but little of the virtue of Sarsaparilla,

we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloguy which rests upon it. And we think we have ground for believing it has virtues which are irrestable by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

THE Eastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that conduces to social complex and hannings. University of the contribution of t certain constitutions, and a soil of small fertility, they have contrived to surpass more favored emmunities in almost every thing that conduces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspepsia and physical debility are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their ailment is chronic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous seres, through which the system will strive to trid itself of corruptions, if not assisted to do this through the natural channels of the body

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the

The Heart's Song

BY ARTHUR C. COXE. List-thy bosom door! How it knocketh, knocketh, knocketh,

How if knocketh, knocketh, knocket Knocketh evermore! Say not 'tis thy pulse's beating; 'T is thy heart of sin: 'T is thy Saviour knocks, and crieth, Rise, and let him in!

Death comes down with reckless footster Think that Death will stand a-knocking

JESUS waiteth—waiteth—waiteth; But thy door is fast! Grieved, away thy Saviour goeth! Death breaks in at last.

Then 'tis thine to stand-entreating Christ to let thee in Wailing for thy sin. Nay, alas! thou foolish virgin, Hast thou then forgot

JESUS waited long to know thee,
But he knows thee not!

### went, Years Ago.

The following beautiful lines have a tenderness and pathos in them which few hearts can resist. What a world of boyhood associations they bring

vivicity before us!

I've wandered to the village, Tom, Pre sat beneath the tree
Upon the school-house play-ground,
Which sheltered you and me:
But none were left to greet me, Tom,
And few were left to know. That played with us upon the green Some twenty years ago.

The grass is just as green, Tom; Barefooted boys at play Were sporting just as we did then, With spirits just as gay. But the "master" sleeps upon the hill, Which, coated o'er with snow, Afforded us a sliding place Just twenty years ago.

The old school-house is altered now;
The benches are replaced
By new ones, very like the same
Our penknives had defaced;
But the same old bricks are in the wall,
The bell swings to and fro,
Its music just the same, dear Tom,
'Twas twenty years ago.

The boys were playing some old game, Beneath the same old tree— I have forgot the name just now, You've played the same with me, On that same spot; 'twas played with knives,

The river's running just as still : The river's running just as still;

The willows on its side

Are larger than they were, Tom

The stream appears less wide;

But the grape vine swing is ruined now,

Where once we played the beaa,

And swung our sweethearts, "pretty girls," Just twenty years ago.

The spring that bubbled 'neath the hill,
Close by the spreading beech,
Is very low—'twas once so high
That we could almost reach—
And kneeling down to get a drink,
Dear Tom I started so,
To see how sadly I am changed
Since twenty years ago.

Near by the spring, upon an elm, Just as the one whose Died twenty years ago.

MUSICAL .- The Chelsea "Nightingale Club," for progation of musical knowledge, is in full and their delightful discordances are a source greatest perturbation whenever they are ard. We copy the following verses from a lat

"The empty laws of time, Tune, melody and rhyme, Tune, nelody and rhyme,
Our arts revoke;
Our notes, and rests, and bars,
Shall ring up to the stars.
Except when fierce catarrhs
Our windpipes choke

Our song is bold and free, Our untamed ministrelay Our nutamed minstrelsy
No rules confine;
We sing three notes in seven,
Or stretch out one to 'leven, With rests that reach to heaven, As we incline!

Let weak musicians rush
Out where some country bush
May start their fires; Our song on startled night Shall pipe them out of sight And higher than a kite

### A Fast Story.

An Englishman was bragging of the speed on English railroads, to a Yankee traveller on English railroads, to a Yankee traveller
seated at his side, in one of the cars of a
fast train in England. The engine belling the state of the cars of a state of the cars was rung as the train neared a station. It suggested to the Yankee an opportunity of "taking down his companion a peg or two," "What's that noise?" innocently inquired the Yankee.

"We are approaching a town," said the Englishman ; " they have to commence ringing about ten miles before they get to a station, or else the train would run by it before the bell could be heard! Wonderful, isn't it: I suppose they haven't invented bells in America yet?

"Why yes," replied the Yankee, we've got bells, but can't use them on our railroads. We run so tarnal fast that the train always keeps ahead of the sound; no use whatever; the sound never reaches the village till after the train gets by."

"Indeed !" exclaimed the Englishman, "Fact," said the Yankee, "had to give up bells. Then we tried steam whistles— but they wouldn't answer, either. I was on a locomotive when the whistle was tried. We were going at a tremendous rate—hurricanes were nowhar, and I had to hold my hair on We saw a two-horse wagon crossing the track, about five miles ahead, and the engincer; let the whistle on, screeching like a trooper. It screamed awfully, but it wasn't trooper. It screamed awfully, but it wasn't no use. The next thing I knew, I was picking myself out of a pond by the roadside, amid the fragments of the locomotive, dead horses, broken wagon, and dead engineer lying be side me. Just then the whistle came along, mixed up with some trightful paths that mixed up with some frightful oaths that I had heard the engineer use when he first raw the horses. Poor fellow! he was dead before his voice got to him. After that we tried lights, supposing they would Hights, supposing they would travel faster than sound. We got some so powerful that the cnickens woke up all along the road when we came by, supposing it to be morning. But the lacomotive kept ahead of it the cnickens woke up all along the road when we came by, supposing it to be morning. But the logomotive kept ahead of it still, and was in the darkness, with the light close on behind it. The inhabitants petion ed against it! they couldn't sleep with so much light in the night time. Finally, we had to station electric telegraphs along the road, with signal men to telegraph when the train was in sight; and I have heard that

some of the fast trains beat the lightning fif

teen minutes every forty miles. But I can't

say as that is true—the rest I know to be so.

COFFEE AS A MENTAL STIMULANT .- Schiller, publisher during his hours of composition, kept at his side a bottle of champagne or Rhenish wine, Blackwood's " side a bottle of champagne or Rhenish wine, or a cup of strong coffee. Horace Walpole wrote usually from 10 to 5 o' clock at night, always having strong coffee to support him in his nocturnal studies. Baron de Grimm states that Voltaire, a few days pryor to his death, with his characteristic activity and enthusiasm, attended the rehearsal of the Academy, and insisted on the production of a new and important edition of their dictionary. To this project many objections were started, which he resolved to obviate in an elaborate discourse. To strengthen himself for the task, he swallowed a prodigiouquantity of strong coffee and then continued to work for upward of twelve hours without intermission. This independent effort brought on an inflammation of the bladder. For on an inflammation of the bladder. THE UNLY KEMEUY L

THE Eastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that conduces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspepsia and physical debility are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their ailment is chronic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

CELEBRATED STOMACH BITTERS. But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest atimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically, or with a temporary power—the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the encroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their deglining days in physical case; whereas they are now suffering from extreme weakness and nervousness. To this venerable class of people, HOSTETTER'S BITTERS may be commended as invaluable. The proprietors of this invigorator have, in addition, a deep gratification in assuring NURSING MOTHERS that they will find the BITTERS they be commended as invaluable. contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Mest of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of chlequy which rosts upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the remedy should be judiciously taken according to directions on the bottle.

No object is more pleasant olook upon than a beautiful child, but unfortunately the freshness and natural bloom of childhood are often marred by disfiguring disorders—we refer to the blighting effects of ringworm and scald head. Mothers desirous of seeing the faces or their darlings unclouded and their heads free from disgusting stores, will be glad to learn that Holloway's Ointment is a quick and effectual remedy for these and all other skin diseases, boils, biotches, pimples, &c. We feel perfectly satisfied that on a fair trial of its virtues its merits will insure it a place in the nursery closet for all time to come. Read the advertisement elswhere.

What the People Want

No great public want can long remain unanswered. When a condition of things has become developed so that a great public want is realized, either in theology, eivil governent, or physics, that very want or demand is sure to create a supply. The hour will create the man, and the need the thing. Witness the swing machine, the reaper, the telegraph. There may be several aburtions. Many may run before they are sent, tout ultimately humanity will triumph, and the vant be supplied.

THE Lastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that contours, and the state of the content of the state of the content of the state of the content of the state o

DR. J. HOSTETTER'S CELEBRATED STOMACH BITTERS.

CELEBRATED STOMACH BITTERS.

But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and deblity, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically, or with a temporary power—the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the eneroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical eases: whereas they are now suffering from exupon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical case; whereas they are now suffering from extreme weakness and nervousness. To this venerable class of people, HOSTETTER'S BITTERS may be commended as invaluable. The proprietors of this invigorator have, in addition, a deep gratification in assuring NURSING MOTHERS that they will find the BITTERS to be best and safest of restoratives. Very few medicines are sanctioned by physicians as proper to be administered during the period of nursing; and this has obtained an universal preference.

### Anecdote of an Actor.

Anecdote of an Actor,

It is many, many years since George Holland, then a young man fresh from England, was making a protessional tour with a well known American actor and manager in the West. One day they reached a farm-house, where the American was well known. They were obliged to stop there several days. The owner of the farm—an old man and his old wife—were very religious. On the arrival of the train, the American said to his companion,—"Now George, these people are old friends of mine; they are strictly religious, and you must behave yourself, or clae they will not receive me again." George promised to keep on his good behavior. Imagine the American actor's astonishment and perturbed the American actor's astonishment and perturbed the American actor's astonishment and perturbed to the day, among which may be found the day, among which may the American actor's astonishment and per- To Root & Shoe Manufacturers.

the American actor's astonishment and perplexity when, as soon as his host and hostess addressed him and his waggish companion, the latter put on airs of the utmost sanctity and sobjety, and exch i ned, in a longdrawn anufile and whine, with a deep groan
and much uprolling of the eyes, "The Lord
be praised!"

The farmer and his wife entertained their
guests for several cays, and all the time wherever the said farmer and the said wife were
about, the said George invariably assumed
his samptimonious air, dropped the corners of
his mouth, snuffled, whined, groaned, and exclaimed; "The Lord be praised!"

DR. M'LANE'S CELEBRATED VERMIFUGE LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to
Dr. Chas. M'Lane's Celebrated

Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.: THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

NEW ENGLAND AILMENTS THE ONLY REMEDY!

THE Eastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that conduces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspepsia and physical debility are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of rolief. They have come to believe that their allment is chronic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

DR. J. HOSTETTER'S CELEBRATED STOMACH BITTERS.

But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of emimence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically, or with a temporary power—the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the encroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical ease; whereas they are now suffering from extreme weakness and nervousness. To this venerable class of people, HOSTETTER'S BITTERS may be commended as invaluable. The proprictors of this invigorator have, in addition, a deep gratification in assuring NURSING MOTHERS that they will find the BITTERS may be commended as invaluable. A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROPULA AND SCROPULOUS COMPLAINTS, ERUPTIONS AND EMPITED SHARES, VICEBS, PIMPLES, BLOTCIES, TEMORS, SALT REBUM, SCALD HEAD, SYPHILES AND SYPHILITIC APPRETIONS, MERCHIAL DISEASE, DROISY, NEURALGIA ON THE DOLUMBUX, DEBILITY, DYSPERSIA AND INDIGESTION, ERYSPIELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from Impurity of the Blood.

This compound will be found a great pro-

preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and paintul disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of oblequy which rests upon it. And we think we have ground for believing it has virtues which are irresistile by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bettle. be judiciously taken according to directions on the bottle.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every wher medicine of its kind is too apparent to escape abservation, and where its virtues are known, the public no longer hesitate what antidote to employ or the distressing and dangerous affections of the almon ry organs that are incident to our climate. While many inferior remedies thrust upon the sommunity have failed and been discarded, this has gained friends by every trial, conferred benefits in the afflicted they can never forget, and promed cures too numerous and too remarkable to be forgotten.

NEW ENGLAND AILMENTS

# THE ONLY REMEDY!

THE CONLY REMEDY 1

The Eastern States, including New York and that section of the Union which is most widely known as "New England." contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that conduces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspepsia and physical debility are prevalent among all classes. The first discase is produced by inattention to the digestive organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their allraent is chronic, and that they must bear with it to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

DR. J. HOSTETTER'S

CELEBRATED STOMACH BITTERS.

But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and asviftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendeacy to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines, which have been devised for the same object, the BATUTERES do not act spasmodically, or with a temporary power—the influence of the remedy is lasting. And if a patient will which have been devised for the same object, the BITTERS do not act spasmodically, or with a temporary power—the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been affored, he need fear no return of the affliction. The debility natural to the encroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus caabling the aged to pass their declining days in physical case; whereas they are now suffering from extreme weakness and nervousness. To this venerable class of people, HOSTETTER'S BITTERS may be commended as invaluable. The proprietors of this invigorator have, in addition, a deep gratification in assuring NURSING MOTHERS that they will find the BITTERS were best and safest of restoratives. Very few medicines are sanctioned by physicians as proper to be administered during the period of nursing; and this has obtained an universal preference.

25 Those who desire to purchase this geat remedy for pyspepsia and bebility should remember the precisition of the DSTETTER CELEBRATED STOMACH HIPPORDERS.

By spepsia and Debility should remember the precise title. H O S T E T T E R 'S CELEBRATED STOMACH BITTERS. It is put up in quart bottles, with the name. DR. J. HOSTETERS. STOMACH BITTERS, blown on the bettle, and also stamped on the cap covering the cork, with the autograph of HOSTETTER'S ASMITH on the label. These things are important, on account of the numerous counterfaits now in the market.

LIVER PILLS. WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public,

We refer to Dr. Chas. M'Lane's Celebrated Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

### NEW ENGLAND AILMENTS THE ONLY REMEDY!

THE Eastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that conduces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspepsia and physical debility are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their ailment is chronic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been fount to fail in all cases of digestive weakness or drangement. Hundreds of tongues are read to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

### DR. J. HOSTETTER'S CELEBRATED STOMACH BITTERS.

DR. J. HOSTETTER'S

CELEBRATED STOMACH BITTERS.

But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languar and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically, or with a temporary power — the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the eneroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical case; whereas they are now suffering from extreme weakness and nervousness. To this venerable class of people, HOSTETTER'S BITTERS may be commended as invaluable. The proprietors of this invigorator have, in addition, a deep gratification in assuring NURSING MOTHERS that they will find the BITTERS the best and safest of restoratives. Very few medicines are sanctioned by physicians as proper to be administered during the period of nursing; and this has obtained an universal preference.

25 Those who desire to purchase this great remedy for physicians and properions of this invigorator have, in addition, a deep gratification in assuring N

We have two of Waters' Planos in use in our eminary, one of which has been severely tested for which the pair, then throwing her white arms about the young man's neck, she impressed a hasty kiss on his bearded lip, and exclaimed:

"Why, Fred! how do you do? And is this the dear little wife you wrote us about? Right here we plainly discerned a blush mantling tle young man's face, mingled with a look of unparalleled surprise, and the countenance of his companion betokened a juvenile thunder storm. But the feminine discoverer, not to be discouraged by any amount of coolness, continued!

"But why don't you get off the train—don't you know you've got home?"

Young man trembled with emotion—companion began removing his glove—all the time looking menacingly at the curl covered head of the fair intruder. Reporters scribbled with commendable desperation, and passengers ceased laughing and began to sympathize. Just here the terrified young man almost smothered by the ringlets of the sobbing girl—mustered courage to stammer:

"Really, madam, you are mistaken in the person; my name ian't. 'Fred'—and I livis in Chicago."

A YANKEE TRICK. A week or two ago four creditors started from Boston in the same train of cars, for the purpose of attaching the property of a certain debtor in Evillation to the same train of the property of a certain debtor in the same train of Farmington in the State of Maine. He owed each one separately, and they each were suspicious of the object of the other but dared "Published by Broadway, N.Y." not say a word about it. ordered or unhealthy food, impure sit, filty and filthy habits, the depressing viees, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending 'from parents to children unto the third and fourth generation;' indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise.

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Emptyrus and Skin Dibrases, St. Antiony's Fire, Rose, or Erispielas, Playles, Pestules, Blotches, Blains and Boils, Tumors, Tetter, and Skin Ribeman, Scald Head, Ringworm, Ribeman, Syrphilatic and Merchial Diseases, Dirorsy, Dyspersia, Debility, and, indeed, All Complaints and sing from Viriation of Impulse Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions. Compound Extract of Sarsaparilla,

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade thom. Their penetrating properties search, and cleanse, and invigorate every portion of the human organ-ism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical deklifty is astonished to find his health or energy restored by a remedy at once so simple and inviting.

simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. Patients in advanced stages of the disease.
So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmon-ry organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
